

L.E.COLLEGE, MORBI
Power Electronics Department
A report on webinar on "Industrial Solar Automation"

An Online webinar on "Industrial Solar Automation" was held via Google Meet platform by Power Electronics Department, Lukhdirji Engineering College- Morbi for the students and faculties on **19th February 2021**. Mr. Chirag Solanki, Assistant Professor, Electrical Engineering Department, OM Education Campus-Junagadh took the session. Following topics were covered in his lecture: Intro about PVsyst system software , Solar site selection, home & industrial solar roof top , industrial solar park, Authentic Report Generation etc.

About 32 students and 15 faculties joined the event from three different colleges. Power Electronics Department thanks Mr. Chirag Solanki- Speaker for sparing his valuable time and delivering the session. Dept. also thankful to Prof. S.H.Trivedi (Assistant Prof., Power Electronics Department), Prof. R.N.Rathod (Assistant Prof., Power Electronics Department) for coordinating the event. Department also sincerely thanks Principal Dr. S.N.Pandya for his continuous support and motivation to organize event.
